

The letters used are: "F" - Frontal lobe, "T" - Temporal lobe, "C" - Central lobe, "P" - Parietal lobe, "O" - Occipital lobe. (Note: There is no central lobe in the cerebral cortex. "C" is just used for identification purposes only.)

Even numbers (2, 4, 6, 8) refer to the right hemisphere and odd numbers (1, 3, 5, 7) refer to the left hemisphere. "Z" refers to an electrode placed on the mid line. The smaller the number, the closer the position to the mid line.

"Fp" stands for Front polar. "Nasion" is the point between the forehead and nose. "Inion" is the bump at the back of the skull.

The "10" and "20" (10-20 system) refer to the 10% and 20% inter electrode distance.
