

POLICIES & PROCEDURES

SLEEP RESEARCH LAB

Date: 12/1995

Approved: _____

CPAP USERS

The following procedure should be carried out on Cohort subjects who have been prescribed with CPAP:

1. Ask if they are able to sleep without their CPAP unit for the study.
2. If they cannot, indicate on the record, the log sheet, **and** the front of the folder that CPAP was used. On the record and log sheet , record the level.

If they can sleep without CPAP, they should do so. Indicate on the front of the folder that they are a CPAP user and that they did **not** use it for the study.
